
Medicinal Research Reviews

Contents, Volume 11, 1991

Issue 1, January

The Third Paul Ehrlich Lecture	
Basic Research as Forerunner of New Medications	
<i>George H. Hitchings</i>	1
Fluoxetine, a Selective Inhibitor of Serotonin Uptake	
<i>Ray W. Fuller, David T. Wong, and David W. Robertson</i>	17
The Concept of Molecular Structure in Structure-Activity	
Relationship Studies and Drug Design	
<i>Bernard Testa and Lemont B. Kier</i>	35
Transdermal Delivery of Levonorgestrel	
<i>David R. Friend</i>	49
Immunomodulating Peptides of Natural and Synthetic Origin	
<i>Vassil St. Georgiev</i>	81

Issue 2, March

HMG-CoA Reductase Inhibitors: An Exciting Development in the	
Treatment of Hyperlipoproteinemia	
<i>F.G. Kathawala</i>	121
Receptor Binding in the Drug Discovery Process	
<i>Michael Williams</i>	147
Detoxification Mechanisms and Tumor Cell Resistance to	
Anticancer Drugs	
<i>Sandra Kuzmich and Kenneth D. Tew</i>	185
Apoptosis or Programmed Cell Death	
<i>P. Waring, F.J. Kos, and A. Müllbacher</i>	219
Erratum	237

Issue 3, May

Potential Antitumor Phenoxazines
Noboru Motohashi, Lester A. Mitscher, and Roger Meyer 239

Recent Progress in Ginkgolide Research
Pierre Braquet, André Esanu, Eric Buisine, David Hosford, Colette Broquet, and Matyas Koltai 295

Issue 4, July

Opioid Receptors and Endogenous Opioid Peptides
Eric J. Simon 357

Computer-Assisted Series Design in Chemical Synthesis of Bioactive Compounds
Peter P. Mager 375

Evolution of the 4-Anilidopiperidine Class of Opioid Analgesics
Jerome R. Bagley, Linas V. Kudzma, Nhora L. Lalinde, John A. Colapret, Bao-Shang Huang, Bor-Sheng Lin, Thomas P. Jerussi, Mark J. Benvenega, Brian M. Doorley, Michael H. Ossipov, Theodore C. Spaulding, H. Kenneth Spenser, Frieda G. Rudo, and Richard L. Wynn 403

Issue 5, September

Development of Male-Fertility-Regulating Agents
Suprabhat Ray, Parul Verma, and Atul Kumar 437

Use of Microorganisms for the Study of Drug Metabolism: An Update
Alice M. Clark and Charles D. Hufford 473

Thromboxane A₂ Receptor Antagonists
Steven E. Hall 503

VOLUME CONTENTS**667****Issue 6, November****Current Status of Medicinal Research in Helminth Diseases***Satyavan Sharma and Sudhir K. Singh* 581**Mineralocorticoid Receptor Ligands: Biochemical, Pharmacological, and Clinical Aspects***W. Sutano and E.R. de Kloet* 617**Computer-Assisted Drug Design. Part I. Conditions in the 1980s***James P. Snyder* 641**Volume Contents** 665**Author Index to Volume 11** 669
